

Sensory Evaluation/Aromas

50 Points

Directions

- Ten aromas have been selected from the list provided on your scantron.
- Identify the aroma that corresponds to the sample number on each vial.
- Completely bubble in the appropriate aroma for each sample number.
- There are four identical sets of aromas.
 - Each team member is required to use their own set.

Each aroma is worth 5 points.

You will be given 15 minutes to identify all 10 aromas.

Peanut butter and almond are **NOT** included in the Texas State contest.

Food Safety/Sanitation Pictures

50 Points

Directions

- Ten photos representing potential food safety and/or sanitation problems will be shown.
 - Each photograph will be assigned a number between 1-10.
- You must identify the **ONE** problem represented in each photo from the list given below.
 - The list contains more potential problems than the number of photographs.
- Once you have identified the problem from the provided list, completely bubble in the corresponding number on your scantron.
 - Only bubble in **ONE** number for each photo.

Each photograph is worth 5 points.

You will be given 15 minutes to respond to all 10 photos.

Eliminate errors by making sure the photograph number (1-10) corresponds to the proper number (1-10) on your scantron!

Triangle Tests

15 Points

Directions

- Three different triangle tests will be conducted.
- Each triangle test will consist of three samples lettered A-C.
 - Two samples are identical and one is different.
- Your task is to identify the one different sample.
- Completely bubble in the letter that corresponds to the one different sample on your scantron.

Each triangle test will be worth 5 points.

You will be given 5 minutes per triangle test.

Triangle Test #1: Fig Newtons

Triangle Test #2: Triscuits

Triangle Test #3: Soda
